Advanced Project Management

5 days training course

For detailed information on training course dates, please click the link:

[Advanced Project Management.](#)

Introduction:

This advanced-level training course provides project professionals with a deep dive into the strategies, methods, and tools necessary to successfully lead complex projects. Participants will learn to effectively implement strategy through projects, manage project delivery, understand project finance, and ensure ethical and professional conduct. This course blends both theory and practical techniques, offering participants the skills required to elevate their project management capabilities to the next level.

Course Objectives:

By the end of this course, participants will be able to:

- Understand and apply strategies to deliver project success in complex environments.
- Manage advanced project delivery models including Waterfall, Agile, Hybrid, and evolving methods.
- Implement governance structures and project assurance effectively.
- Evaluate and manage project finance and apply investment appraisal techniques.
- Lead projects professionally while adhering to ethical guidelines and ensuring competence.

Who Should Attend:

This course is designed for experienced project professionals who want to enhance their skills in advanced project management. It will be particularly beneficial for:

- Project Managers
- Project Team Members
- Project Management Office (PMO) Staff
- Project Directors
